Subject: RE: Outsourcing letter

Thank you so much for sending your signatures.

Rep. Ramsey had a great idea. He is going to bring a signature page for the letter down to Chambers tomorrow and as you send me your agreement to add your name to the letter I will add a signature line.

If you would like to simple keep your e-signature affixed to the letter I will do as you request and add it onto the signature page he will bring to Session tomorrow.

Thank you again!

Subject: Outsourcing letter

Good Afternoon,

Rep. Ramsey is assisting Sen. Dickerson in gathering signatures for a letter of request regarding outsourcing. Please find the body of the letter is below.

If you would like to sign his letter please forward to me your electronic signature and I will affix it onto the letter. If you would like to sign it yourself, please feel free to see Rett Pratt and sign the letter directly.

The deadline for mailing is This Thursday, April 20th at 3:30 PM.

Thank you for assisting us in gathering signatures.

Have a great day.

Mr. Cowles,

We wanted to write this letter regarding the Office of Customer Focused Government's Strategies for Efficiency in Real Estate Management (SEREM) program.

While we share the mission to provide state services at the lowest cost to the taxpayer, we do have reservations about current outsourcing efforts.

Our reservations include the potential impact to state employees, the scope of "vested outsourcing" to state services, and allowing enough time to address concerns of the General Assembly.

We respectfully request that the outsourcing process wait until the General Assembly is able to study and understand the effects on our public services, economy, and state workers.

I hope we can a continued dialogue in this manner as we work towards making Tennessee State government work better.
